

12 Rydall St

Monday -

Dear Sir

As I think you
expressed a wish to see
my air engine at work
you can do so if you will
be at Johnston's yard
Highwell St. Mill Pond
at two o'clock tomorrow -

(Tuesday) Yours
Geo Cayley

Sir George Cayley -

DSI

CAYLEY, SIR GEORGE (f.1796) Scientist.

A.L.S. to an unnamed correspondent.

1p. mounted. 8vo. Ryder St. N.D.

Fetch

52

£1/10/-

Arranging for his correspondent
to see "My air engine at work" in
Johnston's Yard off Millbank.

Sir George Cayley invented a
flying model, consisting of two
screws made of quill feathers.
